

Conflict of Interest Statement

Manuscript: Distribution-Free Conformal Coverage for IVIM Parameter Maps, and the Identifiability Wall in the Pseudo-Diffusion Compartment

Author: Avery Karlin (sole author)

Journal: Magnetic Resonance in Medicine

ORCID: 0000-0003-3848-6782

Date: June 16, 2026

Three equivalent, ready-to-use versions are provided. Select the one that matches the field requested by the Magnetic Resonance in Medicine submission system or the manuscript's declarations section. All are accurate to a sole-authored, independently conducted, unfunded study with no competing interests.

Version A — Minimal (matches the manuscript declaration)

The author declares no competing interests.

Version B — ICMJE-style (financial and non-financial)

Avery Karlin, the sole author, declares no competing financial or non-financial interests relevant to this work. There are no financial relationships, employment, consultancies, honoraria, stock ownership, paid expert testimony, patents (filed or pending), or personal relationships that could be perceived to influence the work reported in this manuscript.

Version C — Comprehensive (competing interests and funding)

Avery Karlin is the sole author of this manuscript and declares no competing financial or non-financial interests. This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors and was conducted independently by the author. No external entity — funder, employer, or commercial organization — had any role in the study design; in the collection, analysis, or interpretation of data; in the writing of the manuscript; or in the decision to submit it for publication.
